University College Hospital

500-bed hospital built
UI Autonomy and Medical Curriculum

The University College Ibadan became University of Ibadan by the Act of Parliament on December 27, 1962.

Medical Curriculum was then changed so that medical students would be trained better for the Nigerian environment.
From Faculty to College

The Faculty of Medicine was restructured and became a College on August 1, 1980.
College as a Faculty

Faculty building
The College of Medicine

At inception, there were only 2 Faculties

• Basic Medical Sciences & Pharmacy
• Clinical Sciences & Dentistry
Postgraduate Institute for Medical Research & Training.

Faculty of Pharmacy became autonomous with effect from 02 October, 2002.

Awaiting senate approval
Some College Buildings and Structural Developments
Oladele Ajose Building

Professor O. A. Ajose
In order to accommodate current concepts in teaching of Medicine and Dentistry, the University has awarded, the contract to put up two floors on the Odeku Library to accommodate our CSL, Central Analytical Laboratory and Offices.
The Proposed Library
College Auditorium
College Administration Block
Physiotherapy building
Dentistry
Dentistry in Ibadan is ever evolving. To address expansion, the University is constructing these structures to address office, service and lecture space.
The IMSG has pledged to build a 250-seater Library behind the Physiology and Pharmacology Departments.
Institute of Maternal and Child Health

The Tertiary Education Trust Fund has committed a significant amount of money to build a 4-storey structure to develop the Institute of Maternal and Child Health.
Walkway
Physiology Lecture Theater Before Renovation
The NEW Look of Physiology Lecture Theater
Needs

• Academic exchanges for staff and students
• Development of Clinical Skills Laboratories
THANK YOU
